THE BLACK CAROLINA QUESTION.

WASHINGTON, July 17.—Attorney General AKERMAN, in a speech at WADE, 28 Saturday last, took occasion to express an opinion as to the course of the government, in case, through opposition or otherwise, two State Governments should claim existence in North Carolina. He takes the ground that the present movement to change the constitution of that State is contrary to the conventions existing under which the State was readmitted, and that the only remedy that could come to the State is by carrying out the present intention of those seeking to secure a constitution that will overthrow the reconstruction constitution.

A RAILROAD FLOATING DOCK.

The Navy Department is watching plans and estimates for the construction of a mammoth floating iron dock for use in repairing of ironclad or various vessels. It is thought of sufficient size to raise the 3,500 ton iron-clad vessel 250 feet long, 60 feet wide, and 6,000 tons displacement.

INTEREST ON THE NEW BONDS.

The first quarterly interest on the new bonds is due August 1. Books for transfer will close this week. Under the instructions from the Secretary of the Treasury, the Post Office address of a bondholder, a check for the amount of interest will be sent to him. Where the amount of interest is small, it will be paid in currency. Where the address is not known, payment will be made through sub-Treasurers, as heretofore.

ENGRAVING.

The grand jury has found bills of indictment against all the correspondents and telegraphers who refused to answer the questions of the Senate Committee, with a view of ascertaining the manner in which the Washington Treaty was published in the London Herald. The Court has no jurisdiction, and indictments by the grand jury do not go to trial, so that the effect of the indictments now being will now fail through.

THE RESIGNATION OF COMMISSIONER PARKER.

It has been caused by the unsatisfactory condition of affairs in the Indian Department, over all matters of the other, but chiefly by a question under which all appointments of Indian agents are made. Commissioner PARKER, of the Commissioner for that purpose. While the President has confirmed Commissioner PARKER fully in the contest between the Indian Commissioners and the heads of the bureau.

WHITE STOCKINGS VS. ECKFORDS.

An audience numbering about two thousand people assembled at the Lake Shore Park yesterday afternoon to witness the game between the Eckfords, of Brooklyn, and the White Stockings. It proved to be one of the busiest and most unpopular affairs of the season, the display in the field being remarkably fine, and the batting very heavy. The Eckfords are a first-class club—their batting they did on this visit, and they are a par in this regard with a number of the Championship clubs—but the White Stockings, whom they had come to meet, were altogether too much for them. The visitors were here only one day—the 14th, although playing engagements had been made for the 13th and 15th—and, being in excellent physical condition, they left home in the full belief that they would be able to make a very creditable showing.
